

For immediate **Press Release**

20<sup>th</sup> February 2024

**RSJ Inspection Service Limited (RSJ) joins as one of the Signatory in the 'Social & Labour Convergence Program (SLCP).'**

[RSJ Inspection Service Limited \(RSJ\)](#) is delighted to announce its participation as a Signatory in the esteemed '[The Social & Labour Convergence Program \(SLCP\)](#)'. This strategic move underscores RSJ's unwavering dedication to upholding global labour standards and fostering sustainable business practices, as exemplified through our [Assure4good](#) service portfolio.

At the forefront of revolutionizing the audit of labour standards in the apparel and footwear industry, the Social & Labour Convergence Program (SLCP) employs the [Converged Assessment Framework \(CAF\)](#) to streamline assessments and elevate working conditions across the sector.

A notable advantage of undergoing an SLCP audit is the elimination of the need for assessments from multiple entities, allowing companies to redirect time and resources towards improving labour conditions within facilities. This approach also facilitates the utilization of comparable data for informed decision-making, eliminates redundant work, enhances transparency, and enables the implementation of corrective measures that lead to tangible improvements.

This milestone aligns seamlessly with our ongoing Samruddhi180 vision, emphasizing RSJ's commitment to corporate social responsibility and sustainable business practices. Our collaboration with SLCP positions RSJ to actively contribute to shaping and advancing social compliance norms, fostering positive changes in workplace environments.

We extend our sincere gratitude to SLCP for this significant recognition and express heartfelt thanks to all stakeholders who played a crucial role in this journey, including our valued clients, partner factories, MSMEs, RPPs, team members, academic institutes, accreditation bodies, and other collaborators.

As we embark on this new phase of collaboration with SLCP, RSJ remains steadfast in our commitment to driving positive change and actively contributing to the improvement of working conditions worldwide, in harmony with our overarching purpose of 'Responsible Value Creation.'
